Remanufactured Systems Furniture

Anderson Interiors is one of the few office furniture dealers in the Pittsburgh area to address price point with remanufactured workstations. We offer "A" grade cubicles at forty to fifty percent of the price of new.

We acquire pre-owned Knoll Equity and Herman Miller workstations and recycle their parts and pieces to create a whole new look. Anderson re-fabricates the panels, adds new laminated worksurfaces, and paints all the parts and pieces to match.

The finish and textile choices we offer the customer are endless. We invite you to consult with one of our account managers and "Discover the Possibilities". Call 412.828.7420 for an appointment.

New Contract Furniture

Whether you're creating a new space or updating an existing office, Anderson Interiors offers a complete line of new furniture products from top manufacturers that will meet your business needs and budget.

Visit www.andersoninteriors.net for a complete line of manufacturers.

Remanufactured Knoll Equity Workstation

Remanufactured Herman Miller Workstation

For over 30 years, Anderson Interiors has been transforming everyday work places into functional and fashionable work spaces! As a Pittsburgh-based, family-owned and operated company, Anderson Interiors services businesses all over the country.

Whether you are expanding to a new facility, or just looking to update your existing office space, Anderson Interiors can offer you flexibility and functionality in one unique package.

It's All About the Customer!

Anderson Interiors' customers have the benefit of an account manager for each office project, whether it involves remanufactured product, new furniture or a mix of both. The account manager will work with the customer and our in-house design consultant to plan and draw the space, quote the project, order the product, and arrange delivery and installation.

We welcome you to visit our 3,000 square foot showroom located in Verona, Pennsylvania. Our on-site 42,000 square foot warehouse and manufacturing facility offers several benefits to our customers:

- From sales to operations, designers to installers, every member of the Anderson Interiors team works together as a cohesive group communicating every step of the way to ensure your total satisfaction.
- We are able to offer a three week lead time, in most cases, from the time of order to installation date.
